

Perth Transport Futures Project

Phase 1 - A9/A85 Junction Improvement and Link Road to Bertha Park

PUBLIC NOTICE – RUTHVENFIELD ROAD CLOSURE

As you know Balfour Beatty are currently constructing the A9/A85 Junction Improvement and Link Road to Bertha Park Project on behalf of Perth & Kinross Council. This includes construction of a new A9 junction with slip roads, a new link road to Bertha Park and a new junction on the A85.

As part of the project a new roundabout (at a point just south of Double Dykes) will be built on the existing Ruthvenfield Road to facilitate access to the new Bertha Park link road.

To enable this roundabout to be constructed in a safe and efficient manner, and to minimise overall public disruption, Ruthvenfield Road will be closed from Monday 15th January 2018 for a period of 10 weeks.

Please note that access will be maintained from the Inveralmond Industrial Estate side for residents of Double Dykes and the commercial operations of J & E Smillie (Growers) Ltd.

Diversions routes for the road closure will be signposted and these make use of the A9 as per the diagram.

Please note that works will be carried out between the following times:

Monday to Friday	7.30am to 7pm
Saturday	8.00am to 1pm
Sunday	No working
Nightshifts	No working

Perth and Kinross Council and Balfour Beatty apologise for any inconvenience caused during these times and thank you once again for your patience. It is highlighted that all efforts will be made to minimise the duration of this closure.

Diversion Routes

For Ruthvenfiend Road Closure utilising the A9

All Diversion Routes will be sign posted using yellow and black signs.

Access will be maintained for residents of Double Dykes and the commercial operations of J & E Smillie (Growers) Ltd from the Inveralmond Industrial Estate side.

NOTE: If you live North of the weak bridge but South of the road closure any vehicles over 3T requiring to deliver to your property will be permitted access through the closure.
